Every Picture Tells a Story

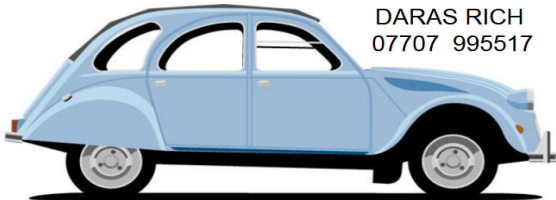

Cliff bought his car in Oct 2002. When he drove it home he had to sit on a cushion due to the condition of the drivers seat. The salesman gave him a hammer to hit the starter motor with if he had any problems on the way home. It has a full service history from new and has only done 45K miles. Cliff fitted a Ken Hanah SLC chassis in his single garage by hanging the body tub from chains attached to batons on the walls. A friend welded new front sections on the floors and bulkhead. Also showing a recent great repair by Daras.

French National Pics

See p3-5 for some super pics. I think they tell a story of another great meet.
